Student instructions

This is an example of a landing page for a course that will be using VoiceThread. The first step is to click "Create new!"

Share a VoiceThread with friends (iOS or Android)

If you are adding new content, you will need to click on "Create a new VoiceThread" to get started

The first step to creating your VoiceThread is to "Add Media"

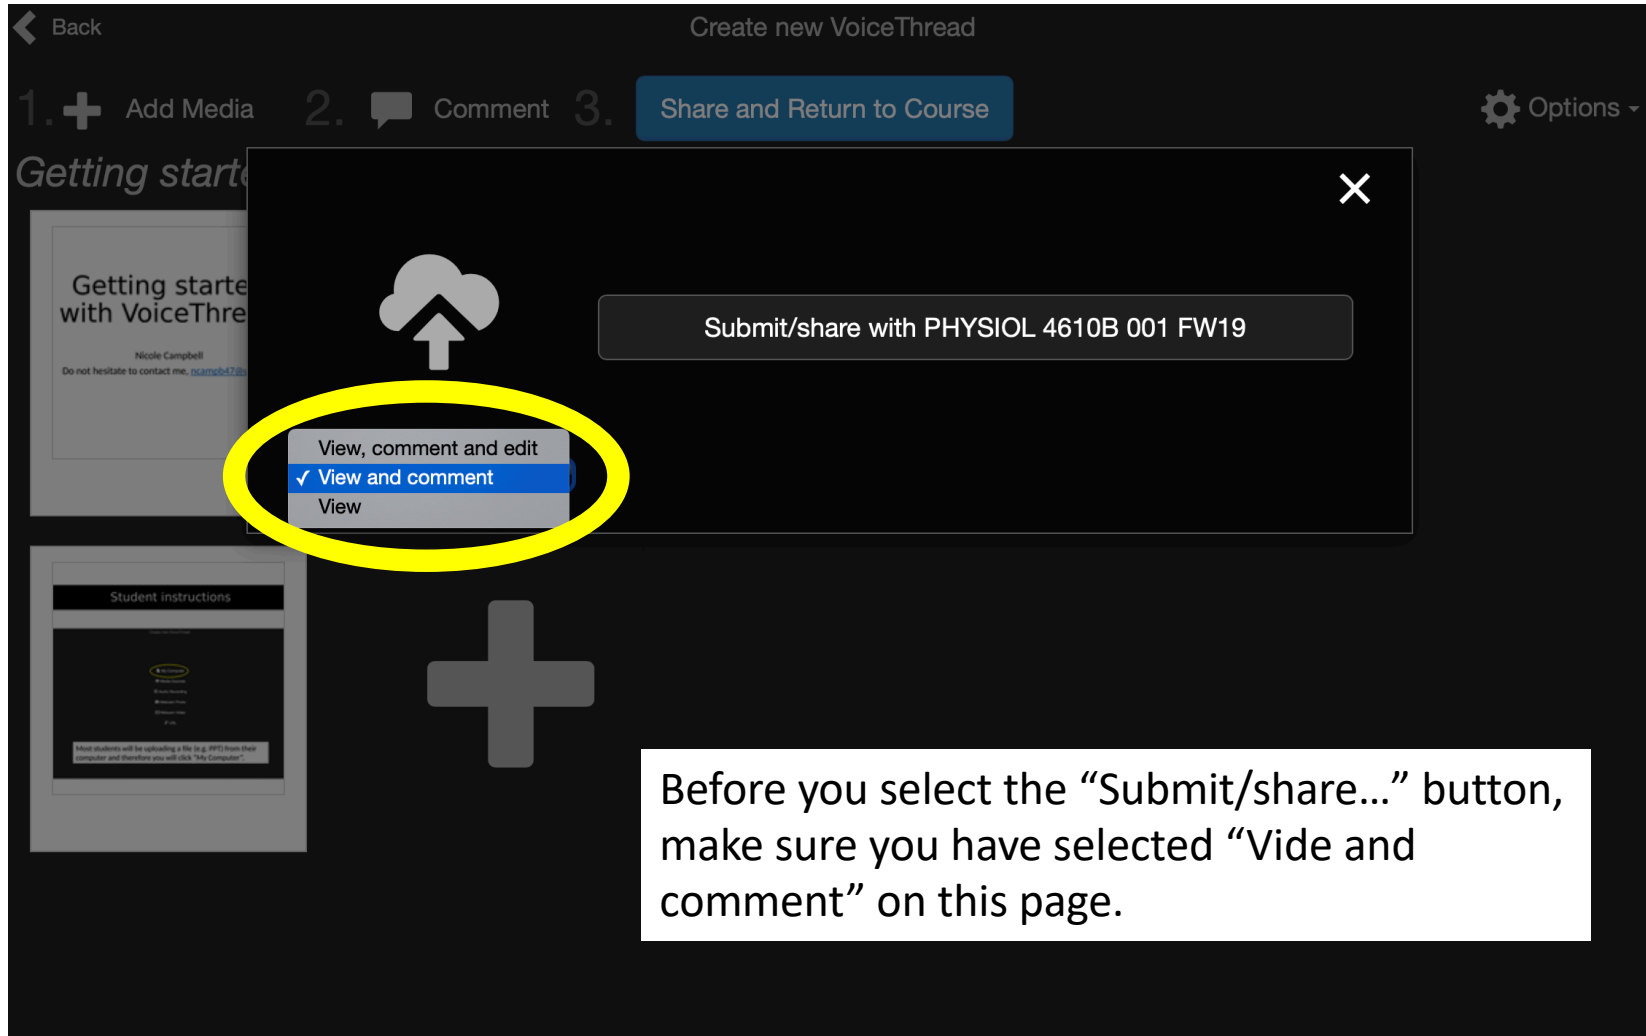

Student instructions

Most students will be uploading a file (e.g. PDF) from their computer and therefore you will click "My Computer"

+

Once your file has uploaded, you will see the contents on this page. The next step is to click "Share and Return to Course"

Student instructions

The screenshot shows the VoiceThread interface for creating a new thread. At the top, there are three steps: 1. Add Media, 2. Comment, and 3. Share and Return to Course. A 'Submit/share with PHYSIOL 4610B 001 FW19' button is visible. A dropdown menu is open, showing three options: 'View, comment and edit', '✓ View and comment' (which is selected and highlighted with a yellow circle), and 'View'. A text box at the bottom right provides instructions: 'Before you select the “Submit/share...” button, make sure you have selected “Vide and comment” on this page.'

Getting started with VoiceThread

Now you are ready to start adding comments. Look for the “+” button at the bottom and select the mode for your comments. The microphone option is common, but your instructor will let you know their preference.

The image shows a semi-circular menu with five options: a telephone icon, a microphone icon, a video camera icon, the text 'ABC', and an 'x' icon. A yellow circle highlights this entire menu. To the right of the menu is an upward-pointing arrow icon.

The following information is relevant if adding a recording. When you are done recording, you will click "Stop Recording". You will be prompted to either "Save" or "Cancel" the recording. If you are recording on a PPT presentation, you can use the arrow tab (bottom right) to advance to the next slide and record your content. Each slide will keep track of the length of your recording.

• Stop Recording

Tips for using VoiceThread

- Keep it simple! Ditch animations
- You can annotate content, but it could be distracting for viewers
- Review your content after uploading it to ensure the format has not been altered
- Ensure you use the right browser and your microphone is enabled
