

This year's conference will be hosted *online* in an OWL site.

9:00 am – 10:30 am	WELCOMING REMARKS & WELCOME TO MY CLASSROOM Explore best practices from a cross-disciplinary perspective. TAs from French, Education, and Media Studies invite you to their classroom simulations to get a taste of how your colleagues from other departments have instilled collaboration and student-centered teaching in their online courses.
10:30 am – 10:45 am	BREAK
10:45 am – 11:30 am	YOUR CHOICE OF THREE PANELS Teaching Health Sciences for Real Life: How can we help our students appreciate the human element of health sciences? This panel introduces several approaches for connecting classroom learning to its real-life applications. <i>OR</i> Teaching Methodologies in STEM: It's time to get hands-on with methodology. Join this panel of STEM scholars exploring ways to instill scientific inquiry and problem solving into their lesson plans. <i>OR</i> Expanding the Boundaries of Teaching, Learning, and Assessment: How can we teach the so-called "soft" skills of communication, teamwork, or resilience? This panel of cross-disciplinary scholars shares their bold approaches for cultivating these transferable but often elusive skill sets.
11:30 am – 11:40 am	BREAK
11:40 am – 12:00 pm	CLOSING REMARKS & GIFT AWARD CEREMONY We'll close with a reflection on the themes emerging from the day's discussions and announce the winner of the Great Idea for Teaching award.

All graduate students and postdoctoral scholars are welcome.

Registration is free. Please register at teaching.uwo.ca
